# Kaye ValProbe RT

Newest State-of-the-Art RF Technology collecting wireless real-time temperature and pressure data in Harsh Environments

- Temperature Range -85°C to 140° C  
Pressure Range 0 – 5 bar
- Antenna Diversity – Unmatched RF transmission reliability in Harsh Environments.
- Best in Class Battery Life
- Multiple Logger configurations (rigid, bendable, flexible - 1, 2 or 5 channels)
- ValProbe RT software incorporated into single platform Validation Console.
- Simple /Cost Effective Upgrade from current ValProbe to ValProbe RT (real time)
